#### 2. Principal Activities

During the financial year, Dreamworld Wildlife Foundation Limited has raised funds to continue to support various tiger conservation projects and a number of initiatives in the areas of animal research, habitat conservation and breeding of endangered species. Funding was allocated to continue the work of our partnership with the Zoological Society of London for the 21st Century Tiger initiative. This initiative focuses on Amur tiger conservation projects in Russia and the tiger protection and conservation program in Kerinci Seblat National Park in Sumatra. The projects protect tiger populations through threat detection, research, community engagement and patrols to combat poaching. The engagement of local communities is critical to increase public support and awareness of tiger conservation work as well as assisting with the improvement of law enforcement efforts to combat poaching and other illegal activities.

Together with other Institutional Members of the Zoo and Aquarium Association, Dreamworld Wildlife Foundation Limited also joined in a partnership with the Southeast Asia Regional office of TRAFFIC, a wildlife trade monitoring network, to support a project to combat the illegal trading in wildlife across different commodities and species. The trading in endangered species has a negative impact on global biodiversity and educational initiatives help support the empowerment of visitors, communities and wider stakeholder networks to take positive action to combat the illegal wildlife trade.

In Australia, funds raised for Australian wildlife initiatives were allocated to several research projects regarding koala populations and habitat conservation and management by the Australian Koala Foundation, the Koala Land Project and the University of Queensland. Dreamworld Wildlife Foundation Limited also sponsored a conservation and education forum organized by The Tree Roo Conservation Centre to increase awareness of Australian tree kangaroo conservation. Support was also provided for the educational work of Save the Bilby Fund which is engaged in education, research and direct action to secure the long term conservation of bilbies and other endangered or threatened Australian animal species.

On 06 August 2013 confirmation of extension of the NSW fund raising authority to expire on 05 August 2018 was received from the Office of Liquor, Gaming and Racing.

No significant changes in the nature of the entity's activity occurred during the financial year.

#### 3. Company Objectives

The Company's objectives are to promote the conservation, research, public education and representation of the interests of the animal kingdom particularly relating to the ecology of threatened and endangered species. The Company aims to provide support, practical assistance and funding for wildlife conservation initiatives and to engage with like-minded organisations and regulatory authorities in representing the interests of wildlife in appropriate forums.
